

# BOILER MAINTENANCE SERVICE

## EMERGENCY HOTLINE

General and preventive boiler maintenance is the number one way to avoid costly outages and expensive equipment repairs. At Agon Pacific, our maintenance services cover everything from cleaning to scheduled repairs. We provide maintenance for all boiler types. An annual maintenance program ensures optimum boiler efficiency and savings.

Agon Pacific is committed to reducing costs and safety incidents associated with sudden outages. With a dedicated emergency hotline staffed 24/7, we are able to deploy emergency response force within 24 hours of your call.

We ensure the quality of work –by implementing rigorous controls through every phase of our services and keeping the quality by following the international standard.

## QUALITY

## SAFETY

Ensuring the health and safety of our employees, our customers and the public is at the core of AGON PACIFIC. We uphold this in the same way that we ensure the quality of our work – by implementing rigorous controls through every phase of our services.

## EXPERTISE

Agon Pacific's expertise in the areas of engineering process calculations, inspections, maintenance, boiler tuning, trouble shooting and modernization can help increase the reliability of your boilers and power plants.
