

Agon Pacific

AT AGON PACIFIC, WE ARE COMMITTED TO IMPROVE THE PERFORMANCE AND VALUE OF EVERY PRODUCT WE DELIVER.

Our technical know-how coupled with our excellent sourcing network means that we can supply a wide variety of pipes, tubes and plates to meet or exceed customers' requirements and preferences. Our storage capabilities, skilled personnel and ASME quality inspections from accredited labs, are some additional factors that give us a sourcing "edge".

Spare Parts and Material Supply

AGON PACIFIC GROUP

Our range of seamless and welded pipes and tubes are recognized for their features such as high strength, smooth internal finish, hardness and high corrosion resistance. This includes materials such as SA192, SA213 T11, SA213T22, 15Mo3, SA213T91, etc. These materials are ideal for Power Plants. Further, our range of pipes and tubes from sizes 1/2" to 24" for seamless, and 1/2" to 48" for welded can be provided in various materials and dimensional specifications and supplied with Manufacturer's Test Certificates
